

Questions for Oral Answers

1. **What is the main purpose of the study?**
How was the data collected?
What were the results?
2. **What are the key findings of the study?**
How do these findings compare to previous research?
3. **What are the limitations of the study?**
How can these limitations be addressed in future research?
What are the implications of the study?
4. **What is the significance of the study?**
How does it contribute to the field?
What are the practical applications of the study?
5. **What are the strengths of the study?**
How was the methodology rigorous?
What are the strengths of the data?
6. **What are the weaknesses of the study?**
How can these weaknesses be addressed?
What are the implications of these weaknesses?
7. **What are the conclusions of the study?**
How do these conclusions relate to the research objectives?
What are the implications of these conclusions?
8. **What are the implications of the study?**
How can these implications be applied in practice?
What are the implications for future research?
9. **What are the implications of the study?**
How can these implications be applied in practice?
What are the implications for future research?
10. **What are the implications of the study?**
How can these implications be applied in practice?
What are the implications for future research?
11. **What are the implications of the study?**
How can these implications be applied in practice?
What are the implications for future research?
