

Questions for Oral Answers

1. **What is the main purpose of the research?**
How was the data collected?
What are the key findings?
2. **What is the significance of the results?**
How do these findings compare to previous studies?
What are the implications for practice?
3. **What are the limitations of the study?**
How can these limitations be addressed in future research?
What are the strengths of the study?
4. **What is the theoretical framework of the study?**
How does the study contribute to the field?
What are the key concepts and variables?
5. **What is the research methodology?**
How was the sample selected?
What are the data analysis techniques?
6. **What is the research design?**
How was the data analyzed?
What are the key results and conclusions?
7. **What is the research question?**
How was the data collected?
What are the key findings?
8. **What is the research question?**
How was the data collected?
What are the key findings?
9. **What is the research question?**
How was the data collected?
What are the key findings?
10. **What is the research question?**
How was the data collected?
What are the key findings?
11. **What is the research question?**
How was the data collected?
What are the key findings?
12. **What is the research question?**
How was the data collected?
What are the key findings?
