

- **1. The first part of the text (lines 1-4) describes the general situation of the company. The main problem is the lack of resources, which is caused by the high costs of raw materials and the low price of the finished product. This situation is very difficult for the company and it is necessary to find a solution as soon as possible.**
- **2. The second part of the text (lines 5-8) describes the measures that have been taken to solve the problem. The company has decided to reduce the costs of raw materials and to increase the price of the finished product. These measures are necessary to ensure the survival of the company.**
- **3. The third part of the text (lines 9-12) describes the results of the measures taken. The company has managed to reduce the costs of raw materials and to increase the price of the finished product. This has led to an improvement in the company's financial situation.**
- **4. The fourth part of the text (lines 13-16) describes the future plans of the company. The company plans to continue to reduce the costs of raw materials and to increase the price of the finished product. This will ensure the long-term survival of the company.**
- **5. The fifth part of the text (lines 17-20) describes the conclusion of the text. The company has managed to solve the problem and its financial situation has improved. This is a very positive result and it is necessary to continue to work hard to ensure the long-term survival of the company.**
