Questions for Oral Answers

A horizontal bar composed of 20 solid black squares arranged side-by-side, spanning most of the width of the page.

- A 15x15 grid of black squares. A diagonal band of white squares runs from the top-left corner to the bottom-right corner. The length of this band increases progressively from row 1 to row 15. Row 1 has the shortest band, and Row 15 has the longest band.

A horizontal row of 20 black squares arranged in a single line, representing a sequence of data points or observations.
